

# Instructions - Canopy Leblok Defender

Drill four holes in the ceiling, centred to the bed, and fit the wall plugs

Screw the screw hooks into the wall plugs (3.0 x 40 mm)

Before pushing the rods into the fabric loop, wrap the ends of the rods in a soft cloth so that the fabric is not damaged by the edges.

Then place one rod after the other and connect them by using the corner connectors

Then cut the thin satin ribbon to the desired length and attach it to the four corners. The canopy can now be hung.

**If you want to wash the canopy in the washing machine, then please in a washing bag.**

**Particularly gentle washing (fine or wool wash cycle at 30°C)**

**No detergents with bleach, do not tumble dry. No chemical cleaning required**

Lay down and enjoy!

Scope of delivery: 4 x square tubes 23.5 PVC white  
 4 x corner connector 23.5 PVC white  
 4 x screw hook 4 x wall plug  
 ribbons
